Language Laboratory

English is an international language and it is a language of communication and employability. The ultimate objective of English language learning is to get the ability to communicate in various contexts and real-life situations. Students should be good at language skills (listening, speaking, reading and writing) along with pronunciation & conversational skills. One can learn the English language through practicing, and one can strengthen one's communication skills by participating in different activities like Group Discussions, Presentations, Debates, Role Plays etc.

To focus on the production and practice of sounds of language and familiarize the students with the use of English in everyday situations and contexts.

- To make students recognize the sounds of English through Audio-Visual aids.
- To help students build their confidence and help overcome their inhibitions and self-consciousness while speaking in English. The focus shall be on fluency.
- To familiarize the students with stress and intonation and enable them to speak English effectively.
